

SAFARI

Rodrigo Rego & Danilo Valente

45-60 min

Overview

You are a game driver helping your guests take pictures of wild animals in the savannah.

Drive your car through the park looking for the best spots for pictures. to fulfill your guest cards.

Also take pictures of mount Kilimanjaro at the center and the watering holes at the corners, for extra points.

Game highlights

- **Big board + very simple rules:** Ideal experience for those looking for a family-gathering experience with very few rules overhead
- **Turn angst:** Each viewpoint can only be occupied by 1 photo. You spend other people's turn praying they don't take the spot you want.
- **Quick turns:** you do a simple action in your turn. It takes seconds.
- **Mid-term planning:** the more actions you take on your board, the more you can move and take pictures when you do the Drive action.
- **Up to 6 players:** turns are so quick that a 6 player game is still perfectly possible.

Example of a board at the end of the game: jeeps move through the roads and place colored discs in the viewpoints between them to the pictures.

Place animals from your board and do the switch actions to reveal movement and picture icons that will make your Drive action more powerful.

Components

- 60 photography discs
- 6 jeeps
- 90 animal meeples
- 6 watering hole tiles
- 54 cards
- 1 central board
- 4 player boards
- 30 switch buttons
