Overview

Create a family tree while trying to uncover bastards in other players families!

The English throne is empty and all noble families want to place one of theirs as monarch.

But the king can't be a bastard, so you must cleverly create a family tree in order to uncover bastards in other families and make sure yours is spotless.

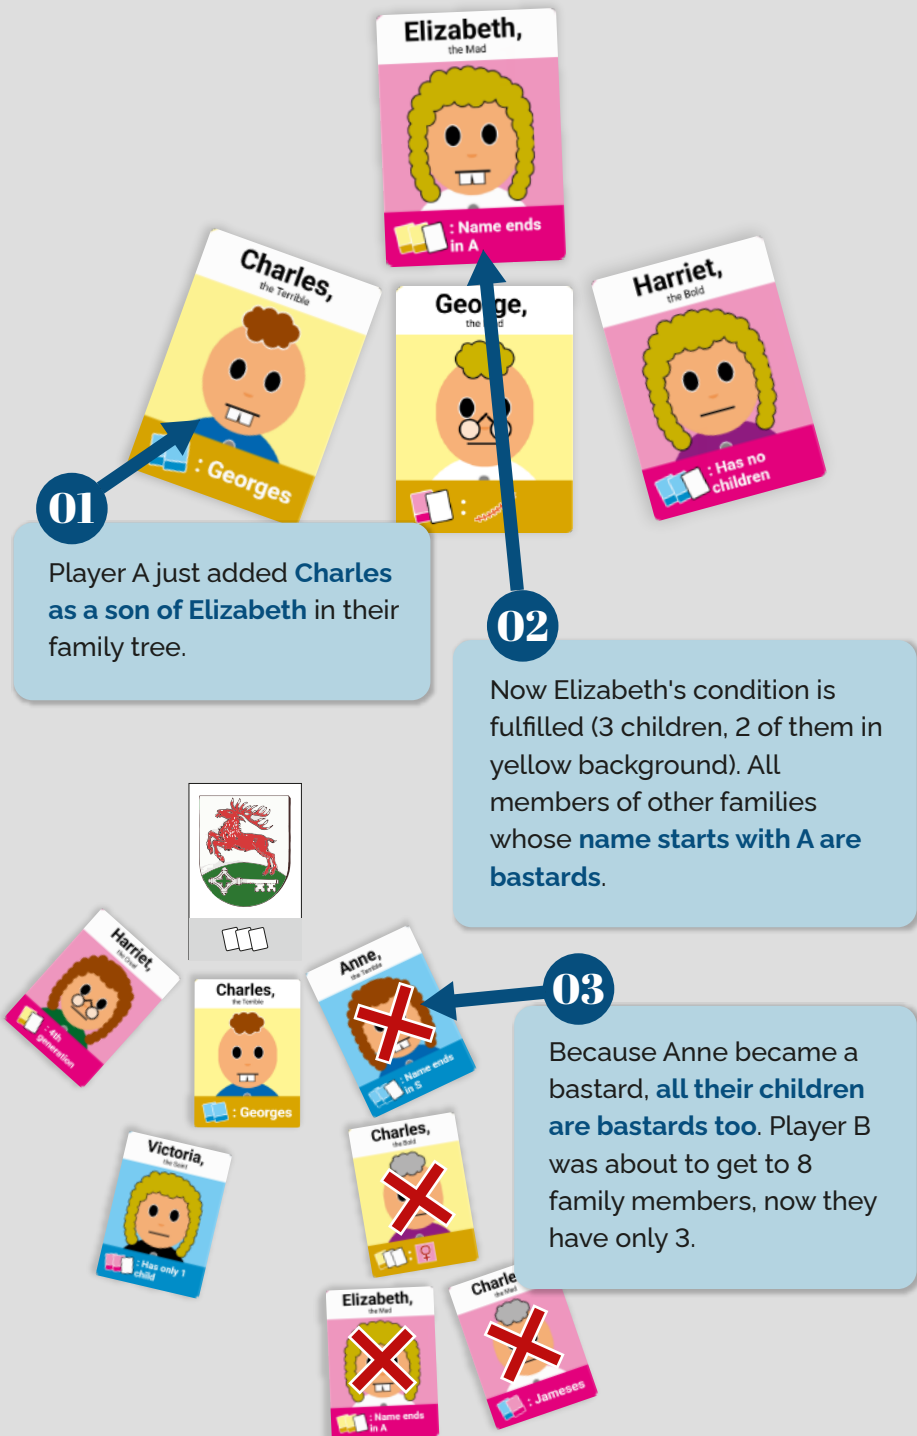

Gather 8 legitimate members in your family or make sure the others' are full of bastards to win.

Game highlights

- **Simple but fresh gameplay:** on your turn just play a card. But the game looks nothing like other card games.
- **Fun highs & lows:** When you uncover a bastard, all their children become bastards too, allowing big come backs and dramatic falls.
- **Unique cards:** Each card has different traits: names, hair color, gender, shirt... All can be targeted when you uncover bastards.

Components

- 68 cards
